St. Paul Radiology – The Urgency Room
3010 Denmark Avenue
Eagan, MN 55121

It is with great interest I am applying for the CT/X-Ray Technologist (Casual) position. I located this position on the St. Paul Radiology website. I am passionate about developing my radiologic imaging skills and patient care in a positive atmosphere with other technologists and medical personnel. I always maintain a positive attitude during patient interaction, as well as everyone I work with. I believe that The Urgency Room would be a great fit for me due to my high attention to details and safety measures. I truly feel that I would be an excellent and valuable addition to your team.

I am currently working as Radiologic Technologist at Stillwater Medical Group and Lakeview Hospital, both located in Stillwater, MN. SMG is a high volume clinic with a vast mixture of x-ray examinations, while Lakeview Hospital has a variety of imaging modalities I became familiar with including Fluoroscopy, C-ARM in OR, and Computed Tomography. I do currently work as a CT Technologist at Fairview Ridges Hospital, which is a very high volume facility with a vast variety of CT examination involving contrast administration and biopsies procedures. I also work under casual status at Allina Health for the urgent care department, which has also provided me with more experience working independently in a different environment.

I graduated from Argosy University Twin Cities with an Associate of Applied Science Degree in Radiologic Technology. I completed the clinical portion of my education at Hennepin County Medical Center in Minneapolis, MN.

I am certain that my clinical education combined with my work experience has provided me with the knowledge and experience to excel as a member of your team.

I welcome the opportunity to further discuss my qualifications in an interview. Please contact me should you have any questions at all, or if I may provide you with any information that would further assist in your decision. Thank you in advance for your time and consideration.

Professionally,

Mohammad A. Mustafa RT(R)
